## Baby Blue Devils Defeat B. G. Juniors

The Pahokee Junior High football team, made up of Pahokee and Canal Point Junior High boys and coached by Leland Keene of Pahokee and George Wilkinson of Canal Point, got off to a good start in their opener on Lair Field Tuesday night when the baby blue Devils downed the Belle Glade junior Rams, 7-0.

Pahokee scored in the first quarter in an end-around play in which Kenneth Sullivan, right end, took a handoff from Quarterback Richard Shackford and streaked down the field 35 yards for the TD, showing his bare heels to the entire Ram team. Sullivan then proceeded to take a pass from Shackford for the extra point.

In the second quarter a 65-yard TD run by Pahokee's Fullback Donald Thompson was nullified by a penalty. During the rest of the game it was a see-saw affair with neither team showing much superiority over the other. Belle Glade threatened only once when they reached the Pahokee 12 in the second quarter before losing the ball.

The Junior Blue Devils will travel to Clewiston Oct. 5 for their next game.

District 10 includes the garden clubs in Palm Beach, Okeechobee, Martin, St. Lucie and Indian River Counties.

The speaker announced a horticultural workshop is being planned for Oct. 12 and a district meeting will be held at Delray Beach Nov. 10. She also said the planting of citrus trees on the grounds of the State Hospital at Lantana, a project of District Six when Palm Beach County was included in that district, has now been assumed as a project by District 10; with a grove of 500 citrus trees the goal. ## Pahokee Council Adopts Budget

The Pahokee City Council Monday night adopted a general budget of \$144,533.80 for operating the city through the fiscal year, Oct. 1, 1954-Sept. 30, 1955. This year's budget, approximately \$20,000 above last year's total estimate, includes an extraordinary item of \$6,500, representing the city's share of the cost of the proposed \$20,000 public health clinic which is to be built on city property next to the local hospital grounds, the city and county each to furnish \$6,500 and the federal government the same amount. The county will staff the clinic.

How to raise this "extra" \$6,500 without raising the tax levy has posed a knotty problem for the city fathers ever since they started working on the budget several weeks ago, and they finally decided there was no other way out, the levy had to be raised a couple of notches, from 15 to 17 mills, to cover this obligatory budget item.

A delegation of property owners was on hand at the Monday night meeting to protest against the proposed two mill levy boost and they presented such a strong argument against it that the Council voted a compromise measure, cancelling out entirely this year the one cent levy reserved for the city hall sinking fund and settling for a total of 16 mills for the tax levy, one above.

Fraser of Pahokee, vice president of the Florida South Central Division of the Florida State Elks Association, has completed an extensive visitation tour of all the lodges within his division except for the Vero Beach lodge. These include Clewiston, Fort Myers, Lake Worth, Stuart-Jensen, West Palm Beach, Fort Pierce, Delray Beach, Belle Glade and Pahokee.

The purpose of these visits, according to Mr. Fraser, was to carry to the various lodges the program as outlined by President J. Alex Arnette of West Palm Beach. One of the main projects in the program is the selling of certificates to promote the establishment of a foundation for the Harry-Anna Home for Crippled Children at Umatilla, Fla., the goal being a foundation fund of three million dollars within 10 years.

Other phases of the program include the promotion of youth leadership training, youth activities, college scholarships for youth schooling for Elks, Americanism, social and community welfare and increased membership in lodges within the division, Fraser said.

## Blue Devils Take One From Pompano

An improved squad of Pahokee Blue Devils subdued the Pompano Beachpickers, 20-7, on Lair Field Friday night in the first home game of the season. Although the crowd of spectators saw some thrilling plays during the evening, it was at times an intolerably slow game with most of the action originating from the officials with their penalty flags. One began to wonder what kind of a game was being played on Lair Field, drop the sandkicker or football.

After a draggy first quarter the Blue Devils began to perk up a bit in the second period when they started a drive from their own 18 where End Don Waddell intercepted a Pompano pass. With Halfback Hal Rosenberg and Pat Turbeville carrying the ball Pahokee advanced down the field to the visitors' 17 where Pompano recovered a fumble after Quarterback George Mills successfully passed to End Chat Clark. Two plays later Pompano got off a short punt to their own 42 but a penalty against Pahokee moved the ball back to the Blue Devils' 43 yard line. From there Mills tossed a short one over the end.

## Here Is What Transpired At Monday's Meeting Of The Palm Beach County Commission

A report that rains in the Everglades were delaying several road and bridge projects, was heard this week by County Commission.

Commissioner Paul Rardin, Canal Point, reported progress on construction of bridges at Six Mile Bend, South Bay and Lake Harbor and on improvement of Ice Plant Road and State Road 15 between Belle Glade and Canal Point.

The Six Mile Bend bridge, Rardin said, has been completed and part of the rock fill along the canal bank has been completed. Rains however are holding up the rest of the canal fill and also completion of the bridge approaches. An early opening of the span was predicted. Piling are being driven for a new bridge at South Bay and a new span at Lake Harbor has been started.

Rains have delayed resurfacing of Ice Plant Road and contractors are ready to start on State Road 15 with the coming of better weather, Rardin said.

The commission also:

Instructed Chairman Lake Lytal and Board Attorney Harry Johnston, to confer with officials from West Palm Beach on clearing title to a plot of land the county is seeking as a site for a new county office building.

Removed a county dedication of a piece of property in West Palm Beach for rededication to the Palm Beach County School Board.

Received a resolution from the Town of Lantana asking the county to push for construction of State Road 9 and to repair one of the main streets in Lantana.

Set October 3 as the time the commission shall meet to review county tax assessments.

A delegation of county officials will be among the group attending the mid-year conference of the State Association of County Commissioners when the organization meets in Ft. Lauderdale Oct. 8 to 10.

The commission this week authorized its members, the county engineer and the county attorney to attend the meeting.

Among topics for discussion will be current litigation on increasing railroad assessments in the state, a law to prohibit littering highway ditches with empty cans and bottles and a proposed change in diversion of the state gas tax money.

Commissioner Paul Rardin, chairman of the Association's legislative committee said his group expects to hear on poll of the state legislators with reference to changing the gas tax law.

Under present statutes, the seventh cent of the gas tax is refunded to the counties for road construction as designated by the county commission. A proposed change in the law would take part of this money from the jurisdiction of the county commissioners in the state.

Mr. and Mrs. Charles Sears of Canal Point and Clarksville, Tenn., announce the birth of a son at the base hospital, Fort Campbell, Ky., Sept. 28. Mr. and Mrs. Harlan H. Sears, Sr., of Canal Point are the paternal grandparents and Mr. and Mrs. Homer Barnes of Pahokee, the maternal grandparents. Both grandmothers left Sunday for Clarksville and were present to greet their new grandson upon his arrival.

## Cinematic Chatter By Malcolm Miller

Hello everybody! I have been wondering where all of the teachers go . . . Well, some of them, like Jean Peters, go to Hollywood. There are times, Jean says, when she's sorry she didn't follow her original plan, and become a school teacher instead of a Hollywood star. There are other times, however, when she's glad she didn't. . . . And aren't we all? Jean's escape from a career as a school teacher occurred when, as a student at Ohio State University, she won a campus popularity contest and as a prize was awarded a Hollywood screen test. She was tested by Twentieth-Century-Fox, spent two weeks seeing the sights in Hollywood, and then came back to school with a long-term movie contract in her purse. Four months later she was back in Hollywood, with her first assignment nothing less than the feminine lead opposite Tyrone Power in "Captain From Castile". The Ohio-born girl made her debut with a big bang! School teaching was finished. She was a Hollywood star! Since that first picture Miss Peters has carried the lead in many outstanding productions and has appeared opposite some of Hollywood's brightest stars. In her

last assignment she had only one regret. She had to make a picture "on location," which meant she had to miss several weeks at the University of California where, if you haven't already guessed it, she's taking classes to complete the course that will qualify her as a School Teacher! See you at the movies—Mal.

## Democratic Harmony Dinner Scheduled

A Harmony Dinner, expected to be one of the biggest Democratic affairs in South Florida since the 1952 campaign, will be held October 9 at the George Washington Hotel in West Palm Beach. The \$5 a-plate dinner is being sponsored by State and County Democratic Executive Committee members for the purpose of raising money necessary for the fall campaign in the state, and especially in two hotly contested district races.

Loyal party members from the ten counties of the Sixth Congressional District of Florida will meet State and County officials, and hear several important speeches by political figures of national importance. Stephen J. Mitchell, head of the party's national committee, and James Millikan, chairman of the State Democratic Committee are cooperating with Martin, Okeechobee, St. Lucie, Indian River and Palm Beach County committee members in rounding out an outstanding program for the dinner. Advance ticket sales indicate an attendance between five hundred and a thousand, with new reservations arriving daily. All Democrats interested in attending the big Harmony Dinner are requested to notify Mrs. C. A. Adams, chairman, on or before October 6, through P. O. Box 1587, West Palm Beach. Ticket sales at the door on the night of the dinner will be limited.

## Defense is your job, too!

**T**HIS IS A DAY OF DREAMS COME TRUE... for the returning Korean War veterans pressing against the ship's rail and for their loved ones waiting on the dock. The counted days of waiting are over, the nightmare of war is behind them. These boys have been far across the seas doing a hard, dirty, bloody job... a job of defense—for you.

But defense is your job, too. It is our job to help make America's economy as strong and dependable as these men have made her military power. And your job can be not only easy but rewarding—in financial security for you and your family. Just buy U.S. Defense Bonds. Buy them now and buy them regularly. For your bonds and other forms of saving can make America strong. And in this warring world, *strength is* America's surest guarantee of peace.

So sign up for bonds today—through the Payroll Savings Plan where you work or the Bond-A-Month Plan where you bank. For your security and your country's, too, buy United States Defense Bonds regularly!

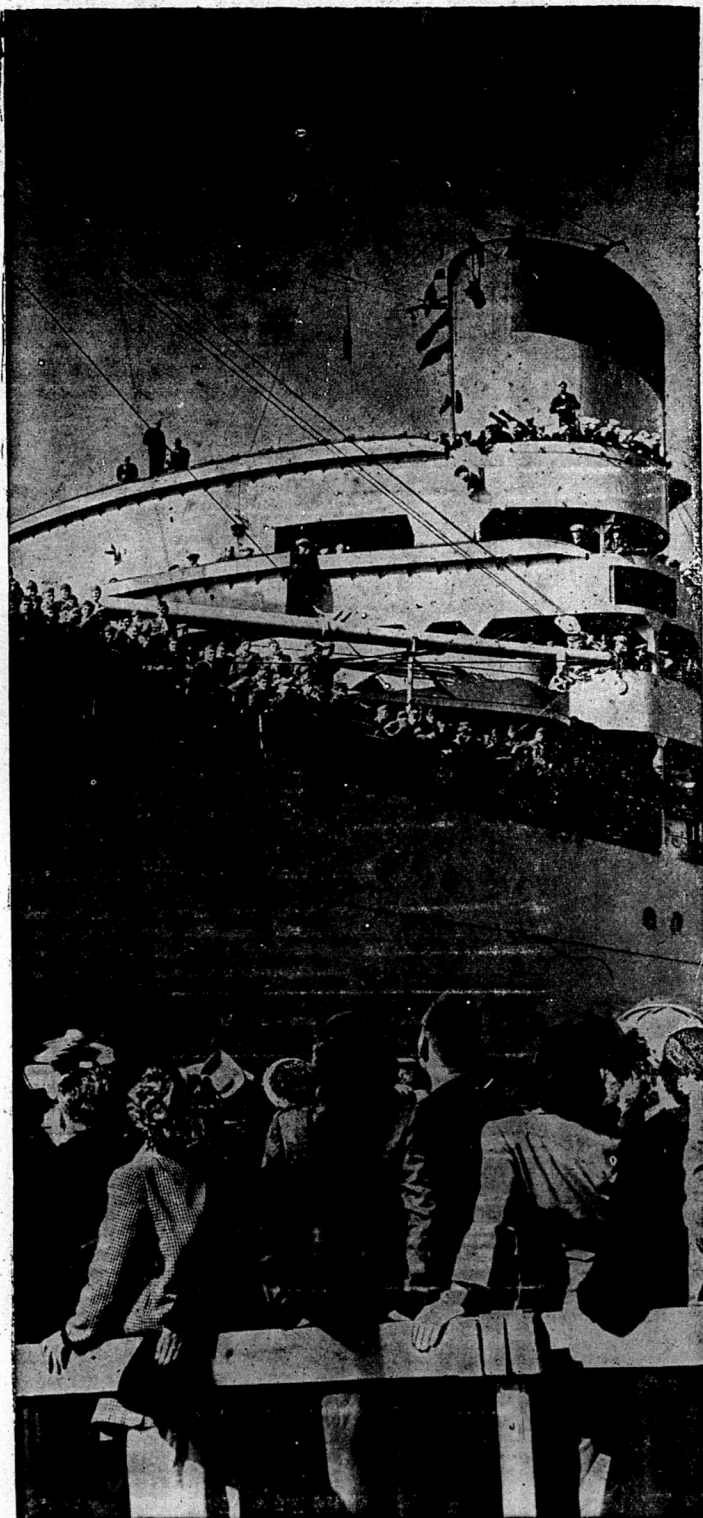

### The U. S. Defense Bonds you buy give you personal financial independence

Don't forget that bonds are now a better buy than ever. Because now every Series E Bond you own can automatically go on earning interest every year for 20 years from date of purchase instead of 10 as before! This means that the bond you bought for \$18.75 can return you not just \$25—but as much as \$33.33! A \$37.50 bond pays \$66.66. And so on. For your security, and your country's too, buy U. S. Defense Bonds now! Bankers recommend them as one of the safest forms of investment.

### Christian Science Group Of Canal Point

The infinite allness of God, good, and the consequently unreality of sickness and discord will be stressed at Christian Science services Sunday.

Readings from the King James Version of the Bible and correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy comprise the Lesson-Sermon entitled "Unreality."

That real domination and power are derived from God is brought out in the Scriptural passages to be read, including the following statement by Paul (II Timothy 1:7): "For God hath not given us the spirit of fear; but of power, and of love, and of a sound mind."

From Science and Health the following selections will be among those read (414: 21-23): "The Scripture declares, 'The Lord He is God' (good); there is none else beside Him.' Even so, harmony is universal, and discord is unreal."

The Stephen Foster Memorial at White Springs draws more people than all other state parks and nearly double the attendance of the John and Mable Ringling Museum, according to Commission Chairman Earl W. Brown.

The Everglades News  
 Canal Point, Florida  
 Attn: Mr. Paul Rardin  
 Dear Sir:

Enclosed is a personal check in the amount of two dollars (\$2.00). This will renew my subscription for another year.

I must say it has been a pleasure to receive and read the "home" paper from week to week. You are probably aware of how friends and relatives are when you first leave home to continue your education or pull a hitch with "Uncle." "We'll write you every week," they say. But these "famous last words" are soon forgotten, and at the end of a year or even just a few months letters from home are few and far between.

The Everglades News has been more than a letter. It has been a weekly composition of all the news from the whole Glades area. In fact as I read it from week to week, it's just like taking a short visit to all the people and places we know.

Keep up the good work, and you may be assured we will always be looking forward to reading the News as it comes to us from week to week.

Very truly yours,  
 J. L. McCall, Jr.

# WHICH ONE DO YOU WANT?

*you can have your dream house—this easy way!*

A dream? Not at all. Thousands of people with modest incomes have been able to save the down payment, or the whole price, of the home of their dreams—because they invested in U. S. Savings Bonds on the Payroll Savings Plan! Look at the chart on this page. See how you can accumulate enough money for the down payment on a home. Or enough for your children's college education or a retirement income. And by saving only a few dollars a week, too.

The answer is that you save *systematically* on the Payroll Savings Plan. All you have to do is tell your pay office how much you've decided to save each payday (it can be as little as a couple of dollars). After that your money is saved *for* you, *before* you get your salary. Then each time enough has accumulated, it is invested in a Bond, and the Bond turned over to you.

And remember—your U. S. Savings Bonds now will bring you an average of 3% interest, compounded semiannually, for 19 years and 8 months. That's why the money you put into Bonds now grows to such a surprisingly big sum.

Why don't you start—today? Sign, where you work, for the Payroll Savings Plan. Or, if you're self-employed, have your banker enroll you in the Bond-A-Month Plan. It's as easy as the Payroll Savings Plan.

## How you can reach your savings goal on the systematic Payroll Savings Plan

This chart shows only a few typical examples of savings goals and how to reach them through Payroll Savings. You can save any sum you wish, from a couple of dollars a payday up to as much as you want. The important thing is, start your Plan today!

## Night Survey Sought At Bad Intersection

A night traffic safety survey at the intersection of State Road 7 and Road 80 was being arranged this week at the request of County Commissioner Paul Rardin.

Rardin, Canal Point, said the intersection "is the most hazardous intersection in Palm Beach County after sundown" when requesting the traffic check by the Florida Highway Patrol.

Steve Middleton, county engineer, said two previous FHP surveys had brought recommendations for changes in signs marking the crossing.

Rardin said the intersection was most dangerous after sundown and that he had personally witnessed two near accidents at that point. His request for a night survey was approved by the county commission.

line to Clark who raced 45 yards for the TD and Rosenberg plunged through for the extra point.

Following an uneventful 3rd quarter the Blue Devils scored again early in the fourth when they drove from their own 22 to the Pompano 19 where Rosenberg took a handoff from Quarterback Buddy Parker and went the rest of the way to pay dirt. Parker passed to Waddell for the point.

Near the end of the game the Beanpickers' big Fullback Bill Farrell, starting from his own 26, caught the Blue Devils off balance and pounded 74 yards down the right side of the field for Pompano's lone touchdown. Neece went through the line for the extra point.

Pahokee then took advantage of a short offside kick by Pompano which backfired on the Beanpickers when a Pahokee player grounded it on the visitors 46. On the next play Rosenberg took Parker's handoff and bulldozed his way through several would-be Pompano tacklers, crossing the goal line standing up. A pass attempt for the extra point was intercepted.

The bands of the two schools gave a fine halftime show, the Pompano Band featuring the Dixie theme and Bandmaster Robert O. Lamp's crack Pahokee High Band doing some high stepping in keeping with its "Country Capers" theme.
